Tech stack diagram

This diagram tends to showcase every aspect of our project, including a superior 3 layer diagram.

Pillars of our application

1. Front-end services which provide smooth customer experience.

2. Back-end services for login and register.

3. All the tools we have used to achieve this.

Front-end

Vue.js — Typescript — Scss

Back-end

Postgres — Prisma — Express

Tools

Figma — Visual Studio Code — GitHub
